## Backyard Screening | Gravity Was Everywhere Back Then

Hosted by | Haley Lauw

1302 Raa Ave  
Tallahassee, FL 32303

*Gravity Was Everywhere Back Then* is an interdisciplinary art piece and film by Brent Green about a man named Leonard Wood who tried to turn his house into a healing machine to save his wife's life. The film is a combination of live action stop motion, live performance, and installation elements. The entire film is about an hour and some change long.

You can watch the trailer here:

A note from Haley:

I love this film.

I'm looking forward to sharing it with all of you.

We'll be watching the film in my backyard with a projector. We will have a handful of chairs and blankets, but please feel free to bring your own seats.

If the weather is chilly, there will be a bonfire!

BYOB (but not for you sweet, underage students.)

BYOSnacks.

Please leave your pets at home (we have one aloof beagle boy and a recently adopted foxhound who is afraid of most things.)

I'm pressing play at 7:30pm, so get here a little early!

Friends are welcome to linger and discuss post-screening!
