****Note:** You should go ahead and request your free parking permit through your FSU portal. The parking permits have recently transitioned into virtual parking permits - so there is no need for a printed permit. Once your vehicle's license plate and general information is registered you should be able to park on campus. This permit is a 24/7 virtual permit, which allows parking 24/7 in student spaces, Faculty/Staff spaces (after 4:30pm) and loading zones for 20 minutes. Remember to park nose first into your spots in order to avoid a parking citation.**
