

Lyft Pass FAQ for Spring 2024 Semester

What is this?

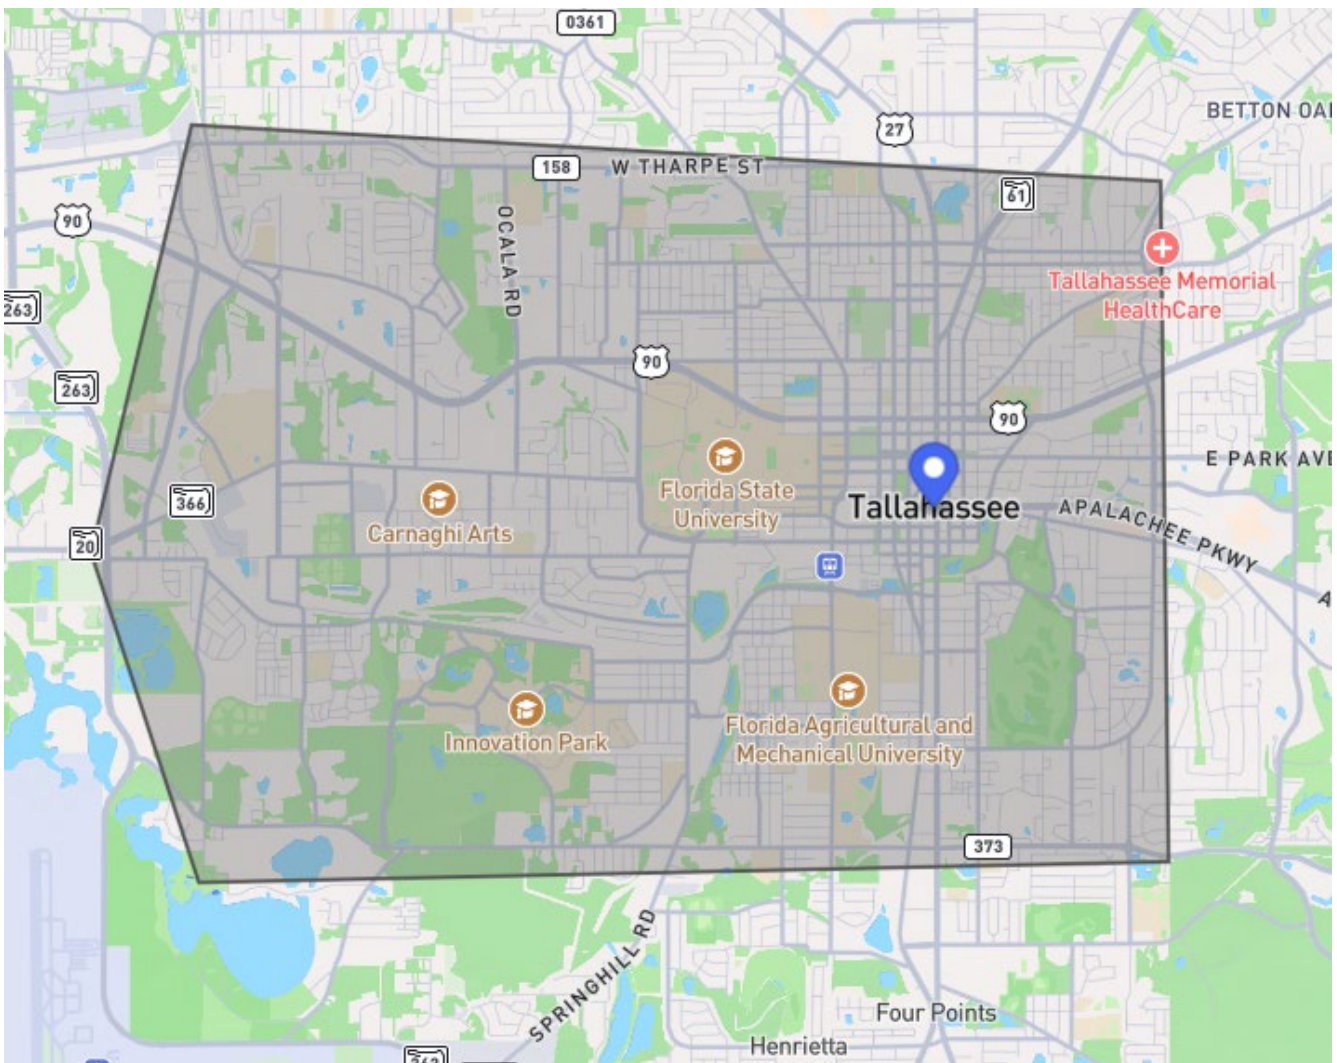

Tori has worked with FSU Transportation and Parking to come up with a way to help students get home when they are staying late at CAB – after the Seminole Express bus has stopped running. This happens through a Lyft Pass that has been arranged via the SAFE Connection program. The service will be available from 8pm-2:30am.

How do I use it?

1. Download the Lyft app
2. Add a Lyft Pass to your payment methods (code CAR2024S)
3. Request a Lyft ride

Will this work for where I live?

This system works for the service area shown below, the same as the [Nole Cab](#) program. If you live within this area, the code will pay for the first \$20 of the ride (it was increased from \$15 to help even more). If you live outside of the area shown, the code will not pay anything toward your ride.

Is this a permanent solution?

No, this is a temporary solution for this semester only.

Can I use this instead of the bus?

No, this service is available from 8pm-2:30am – after the Seminole Express bus has stopped running for the day.

Can I use Lyft “wait and save”?

“Wait and save” allows for lower prices but during peak times the option may not appear. This is true whether you are using the Lyft Pass code or not.

Can I still use Nole Cab?

Yes. [Nole Cab](#) runs from 10pm-4am and covers the same service area shown above. Rides cost \$6 per carload for up to 4 students and 2 stops in the same direction. Nole Cab might make sense if you talk with others at CAB and plan to leave together. Nole Cab wait times can be excessive, however.

If you still have questions, please email [Rob Duarte](#)
