

Communicating Science

A Summer Institute for K-12 Teachers

What are the research-based practices that will engender best student learning from my science instruction?

*A Summer Institute Sponsored by:
FSU Office of Science Teaching Activities*

- ❖ Open to teachers of grades K-12
- ❖ Earn a \$600 stipend
- ❖ Practice research-based teaching methodologies that are aligned with the new standards using innovative instructional materials as exemplars of important educational strategies for science teaching
- ❖ Earn two graduate credits from FSU (valued at over \$900 and worth up to 40 in-service credits)
- ❖ Receive instruction to help you plan and design your classroom science instruction

**When: June 24-27 and July 1-2, 2019
(6 days: Monday-Thursday and Monday-Tuesday)
8:30 – 3:30**

Apply NOW—Space is limited:

Online Application Only
