

Talking to Learn Science: Engaging Students in Productive Talk in Science Class

A Summer Institute
for 4th – 12th Grade Teachers

*A Summer Institute Sponsored by:
FSU Office of STEM Teaching Activities
Facilitators: Todd Bevis and Ellen Granger*

- ❖ Open to Leon County teachers of *science* in grades 4-12.
- ❖ Earn a \$400 stipend as you engage in four days of professional development
- ❖ Developing productive talk with students is key to student sense-making in science class as students must *talk science to learn science*. Participants will engage in science lessons and unpack the pedagogy around facilitating productive discourse to elicit student ideas. This includes eliciting initial student ideas about a phenomenon, supporting their exploration of it, facilitating discourse as the class together develops the normative scientific explanation (CER), and leading discourse in an application of what they have learned.

When: June 19th – 22nd, 2023
8:30 – 3:45 Monday-Thursday

Apply NOW—Space is limited:

Online Application Only
