

*Be part of healthcare innovation with hands-on AI experience.*

*Collaborate with experts to solve real clinical problems.*

*Compete for prizes and gain recognition.*

*Learn from keynotes on AI and ethics in healthcare.*

*Access real-world datasets and expert mentorship.*

*Featured Speakers:*

*John Halamka MD, MS.  
Leo Celi, MD, MS.*

## Mayo Clinic Datathon and Data Summit

April 4-6, 2025, Kinne Auditorium, Mayo Clinic Florida

### Data Summit (April 4)

- Addressing bias in AI and its impact on healthcare.
- Collaboration between clinicians and tech to bring AI solutions to practice.
- Panels on clinical decision support, overcoming bias, and building expert communities.

### Datathon (April 4-6)

- Teams collaborate to solve real-world healthcare problems using data.
- Hands-on experience in AI model development and data analytics.
- Mentorship from experts across clinical, data science, and engineering fields.
- Final presentations judged on innovation, impact, and feasibility.

### Why Attend?

- Learn from top experts in AI and healthcare.
- Collaborate with peers to solve real-world clinical problems.
- Gain hands-on experience in AI model development and clinical data analysis.

### Course details

Registration: \$200.00 CME: 7.00 AMA PRA Category 1 Credit™

Course Directors: Anirban Bhattacharyya, MD, MS.  
Pablo Moreno Franco, MD.
