Keep an eye out for the ISL's fourth podcast episode featuring Dr. Joseph Watson! ISL podcast episodes are posted bi-weekly on Monday. Interested in being interviewed? Email the ISL!

LabGenie Project Featured by AHRQ GenAI Innovation

We're proud to share that LabGenie, a project co-led by ISL affiliates Dr. Zhe He and Dr. Mia Lustria, was recently featured by the Agency for Healthcare Research and Quality (AHRQ) in their national newsletter on generative AI in healthcare. This recognition reflects ISL's commitment to advancing technology-driven solutions that promote healthy aging and empower older adults through accessible, innovative care tools. Read [here](#).

DR. R. MARK ISAAC

We're proud to celebrate ISL affiliate **Dr. R. Mark Isaac**, Chair of Economics at FSU, for his recent recognition as a Fellow of the **Economic Science Association**, one of the **highest honors** in the field of experimental economics. Dr. Isaac is internationally known for his work using laboratory experiments to explore decision-making under uncertainty, auction design, and public goods. With a career spanning decades, he's helped shape economics into an observational science grounded in empirical insight.

This year, he joins the **ESA's 2025 class of Fellows**, following his receipt of the inaugural **ESA Distinguished Service Award in 2024**.

LIVE: ISL'S BI-YEARLY NEWSLETTER

We're thrilled to announce the release of our **biannual newsletter**, a major milestone for the Institute for Successful Longevity.

This edition highlights our latest research, faculty achievements, community outreach, and exciting initiatives shaping the future of aging and longevity.

From breakthrough studies to podcast spotlights, this issue is packed with insight and impact. Read [here](#).

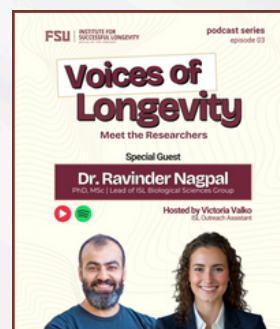

OUT NOW: PODCAST EPISODE NO.3

VOICES OF LONGEVITY: MEET THE RESEARCHERS

Special Guest: Dr. Ravinder Nagpal

In this episode, the ISL welcomes special guest Dr. Ravinder Nagpal, a leading researcher in microbiome science and aging. He shares his journey into gut health research and discusses how the microbiome influences longevity, cognitive health, and overall well-being in older adults.
